HEALTH & SAFETY INFORMATION

Avoid ingestion, inhalation, skin & eye contact. Handle in accordance with good industrial hygiene practice and any legal requirements. Store in a cool and dry area with adequate ventilation. Keep the product in the original container with the lid tightly shut. Ensure the correct Personal Protective Equipment (PPE) is worn.

For further information please consult the safety data sheet.

DIRECTIONS FOR USE

Apply Blue-Gem® to clearly mark the areas you have sprayed to avoid missing or overdosing areas. It is non-toxic and is compatible with herbicides, fungicides, insecticides, moss killers and fertilisers. Typically it will stain the treated area for 3-4 days and degrades in sunlight or is washed away with the rain.

Use Blue-Gem® at a rate of 125-300ml per 100 litres of water. When using on grass you may have to increase the rate to clearly see the treated area.

Half fill the spray tank with clean water. Stir/agitate the water and add the required quantity of Blue-Gem®. Add pesticide or other treatment(s), then fill tank to the desired level and commence spraying.

1 Litre e
